One Spectacular Fantasy World

Incredibly Detailed Fantasy World

PANZAR comes to life through the raw power of CryENGINE, the ultimate game development platform delivering incredibly detailed graphics and fluid gameplay. Players face off in rich and detailed environments such as mountain waterfalls, jungle villages, ancient castles and temple ruins. PANZAR is flexible, serving a wide range of graphics capability modes, so computers of many generations can get into battle.

Tactical Gameplay Modes

PANZAR has a wide range of locations, equipment and skills creating an almost never-ending variety of tactical options and

battle strategies. There are eight different character classes, each with their own unique skill set, game dynamics and overall role within the team. With several different gameplay modes – Domination, Siege, Rugby and King of the Hill - it's a game you'll want to play again and again.

Unique Heroes

Players can create their own formidable characters and develop and equip them as they like. You can buy, sell, craft and upgrade weapons, armor and magical potions at any time between battles. Not to mention the nearly limitless freedom of self-expression arising from all the hairstyles, battle cries and armor paint choices. Unleash your imagination!

Advanced Social System

Players can communicate with other players right in-game using voice, team and general battle chat options. Finding new friends, grouping or reconnecting with old ones is simple! There are even gold bonuses on offer for each new friend recruited.
